*June 22-24, 2021*

Event Name: Canadian Remote Sensing Society Annual Conference

Event Details: Earth Observation for Wildlife Habitat Mapping, Monitoring, and Conservation - Virtual Room 3

"Using SAR to Characterize Black Tern Nesting Habitat and Survival in Response to Record Lake Level Rise"

Michael Battaglia, Jennifer Fuller, Dr. Laura Bourgeau- Chavez, Andrew Poley, Brian Huberty

"Hybrid Remote Sensing Methods for Wetland Mapping and Monitoring for Northern Latitude Waterfowl Habitat"

Dr. Nancy French, Dr. Liza Jenkins, Michael Battaglia, Michael Merchant, Dr. Bruce Chapman, Kevin Smith, Dr. Laura Bourgeau-Chavez, Andrew Poley, Jeremy Graham

"Modelling, characterizing, and monitoring boreal forest wetland bird habitat with RADARSAT-2 and Landsat-8 data"

Evan DeLancey, Dr. Brian Brisco, Logan McLeod, Kevin Murnaghan, Dr. Richard Hedley, Dr. Erin Bayne, Fiona Gregory, Dr. Jahan Kariyeva
